

# DO YOU KNOW WHAT TO DO IN CASE OF A FIRE?

**1** Warn and help any other residents.

**2** Escape by means of an (agreed) safe route. Not possible? Go stand in a visible place in front of a window.

**TIP:** Prepare a flight plan for your home and discuss this with your housemates.

**3** Stay as much as you possibly can away from any smoke (close to the ground).

**4** Never use a lift/elevator. Do you have difficulty in walking? Then ask if others can help you.

**5** Close all doors behind you.

**6** Call 112 and warn any neighbors.
